Photo Courtesy: Rob Verhorst/Redferns/Getty Images Many celebrities with successful careers in entertainment, sports, music, writing and even politics have an amazing background in another field of expertise: medicine. From medical degrees to credentials in fields such as nursing, psychology and neuroscience, these celebrities could return to wearing lab gowns and gowns at any time à or already have. Some of these stars have also offered to use their skills to help people affected by COVID-19. It's admirable how they used their fame and knowledge to help others when they matter. Believe it or not, Ken Jeong's hilarious performances in Hangover, Community and more were preceded by a career in internal medicine. Exactly: The actor known to play Mr. Chow in "The Hangover" is a licensed medical doctor in California. Photo Courtesy: Conan,IMBD In an interview with NPR, Jeong shared: "I was perfectly trained to be a doctor. You know, it wasn't an accident. I worked hard on it. Once I started appearing on TV, it coincided with my departure from medicine. It was kind of a time for "time to go", it's time to pursue this full-time job".While her main fame is her incredible 12 Olympic medals, Jenny Thompson also completed her training as an anesthesiologist, one of the most essential (and challenging) jobs in any hospital. Photo Courtesy: Corey Sipkin/NY Daily News Archive/Getty Images After a successful career as an Olympic star, Thompson decided to shift his career path to medicine and successfully completed a specialization as a pediatric anesthesiologist. He showed the same world-class grit he used in his Olympic competitions to fight Covid-19 with others on the front lines in South Carolina. Mayim Bialik played a genius in The Big Bang Theory, the longest-running sitcom ever. Her role was not entirely unrelated to reality either: Bialik is not only an experienced actress, but she also studied neuroscience with a PhD at UCLA. Bialik grew up in the spotlight while working as a child actor in Blossom. When he reached adulthood, he refocused his goal on something less famous: medicine. However, after studying for years, Bialik found the medical industry too chaotic. He went back to acting and got one of the most important roles on television. It's almost impossible to imagine the legendary Tina Turner embarking on a career outside of music! However, before her musical debut, Turner was about to become a nurse. After graduation, she also got a job as a nurse at the Barnes-Jewish Hospital. Photo Courtesy: Greetings Tent/WireImage/Getty Images However, with a voice like his, Turner does not escape the celebrity for a long time. After showing his stellar pipes for Ike Turner in a club, he joined him a musical group of him, the Kings of Rhythm band. After quell experience, the nursing aspirations of him were in the rearview mirror. Kate Gosselin's revenue always didn't come from reality. Before wave wave eccentric family in the world in Jon & Kate Plus 8, Gosselin spent most of his young adult life working as a nurse. As a healthcare provider, his focus was on work and delivery. courtesy photo: Aaron Poole/E! Entertainment/NBCU Photo bank/NBCUniversal via Getty Images What made it leave its previous position? Nursing in Pennsylvania did not bring enough to raise eight children, while reality television helped increase its income enough to make motherhood more manageable. However, Gosselin should have renewed his nursing license only if his media career ever ended. Bonnie Hunt is known for over 40 film and television appearances, but before being an actor, she was a nurse. Even though she had her eyes on Hollywood from a young age, her father insisted that she seeks a stable career in medicine. Complimentary photo: TriStar Pictures/IMDB After attending nursing school, Hunt worked as an oncology nurse for half a decade. However, his thoughts remained on comedy, acting and entertainment. After five years with Second City's sudden crew, he left his job and threw himself into the acting scene, and paid. She became famous enough to earn her special, The Bonnie Hunt Show. Adrian Holmes is a friendly face on Smallville and Arrow, but he also used to bring smiles to spinal patients as a nurse. Holmes's mother is the one who encouraged him to pursue breastfeeding as a career fallback practice in case his acting pursuits appeared short. Photo Courtesy: The CW/IMDB After graduating from Langara College, she spent time working in a spinal unit. He assisted many young people come through wounds that made him grateful for his capable body, and remained humiliated as his actor's career took off. While friends would not be the same without Lisa Kudrow as Phoebe, acting was not always in the cards for her. Coming from a family focused on medicine, Kudrow went to college to study psychobiology. He was hoping to join his neurologist, Lee Kudrow, in his medical research. Photo of Cortesia: Conan/IMDB However, despite his degree, his plans to enter the medical field have collapsed. Why? It was introduced to the wonders of the entertainment industry. After joining a group of dramatics, entering the theater and making friends with Conan O' Brien, his future in acting was sealed. Julie Walters is known for her motherly role as Mrs. Weasley in the Harry Potter series. However, the movies are not the only place where his eye-catching abilities shine. Before becoming an award-winning actress, Walters pursued a nursing life, obtainingHer qualifications at Queen Elizabeth Hospital. Photo courtesy: Dave J Hogan/Getty Images "Oh, I loved being with patients so much", he shared with The Telegram. "I liked to wash them, feed them, tell them jokes...I was very good at making them laugh, but unfortunately terrified of all the rest of the work involved. And this is not ideal... " Adrienne Bailon has had a remarkable career in entertainment. The singer has exhibited with groups like Cheeta's girls, hosted a talk show, and appeared more film. However, when he was a child, he had a different dream: going to medicine. Photo of courtesy: @ Adriennebailon / Instagram Bailon was so dedicated to becoming a medical professional who attended high school for health professions and human services in New York. However, he decided not to pursue his career to college and instead turned his mind to music. Kim Zolciak, one of the best stars of the Vere Homemade Atlanta, spent years to establish a public figure, an entertainer and a beauty guru. However, before you fascinating her days as a celebrity housewife, Zolciak has her to work as an authorized nurse. Photo of courtesy: @ Kimzolciakhiermann / Instagram Zolciak participated in the Connecticut University, where you received a nursing degree before becoming an authorized practice nurse (LPN). However, medical occupation could not keep the interest of her. She tried her hand in different other work positions before breaking on her television. In addition to being a main member of the offspring, one of the most popular pop-punk bands of the mid-1980s, Bryan Keith "Dexter" Holland also has a background in molecular biology. He earned graduate and master's degree in the fields of biology and molecular biology even when the offspring has found success. Photo of courtesy: Mauricio Santana / Getty Images unlike some of the celebrities of this list, he has never completely renounced molecular biology, not even. In 2017, he successfully completed his doctorate. In the subject at the School of Medicine USC Kock. Before the runway and high fashion days, Jenny McCarthy dreamed of becoming a registered nurse. While she never actually done in the medical field, McCarthy was dedicated to joining her university days. Photo Courtesy: Conean / IMDB unfortunately, after studying the nursing diligently for two years at college, the future entertainer was drained financially and emotionally. She realized that he couldn't afford another semester of school and abandoned. While she was initially crushed, she became a quick success in modeling and acting, and today she is one of the most recognizable faces in circulation. After a successful run on Waverly Place wizards, one of Disney's most popular shows, Jennifer Stone (Harper Winkle) entered medicine. After studying as a nurse, she entered a registered nurse (r.N) program. Photo of courtesy: @ Jenniferstone / Instagram Stone announced its decision to work on the front line during the Covid-19 pandemic in April 2020. "I just hope to live up to all the fantastic healthcare providers in the first Ready to join them", said Instagram fans to her. Howard Stern's show wouldn't have been complete without Robin Dires. Stern's on-air on-air partner. While she seems to be a natural radio personality, the quivers was once a nurse for the United States Air Force. This career path was not was intentional! The recruiter would pick her up on the phone and she wouldn't need an answer. Photo courtesy: Charles Eshelman / Filmmagic / Getty Images Nevertheless, he served honorably until retirement in 1978. Later, he decided that nursing might not have been his ideal career after all. Instead of pursuing medicine beyond the military, he joined Howard Stern in his spite. David Lee Roth, the iconic frontman of Van Halen, went in the opposite direction of most of the people on this list, going from musician to doctor. Tonica along his punk personality to train and work as an Emergency Medical Technician (EMT) in New York in the early 2000s. Photo courtesy: @Davidleeroth/Instagram throughout his career as an EMT, Roth helped countless strangers overcome their scariest moments. "It was an eye-opening adventure", he told people. "I'm a member of a team again, and that's what a rock band has always been." From Jurassic Park to ER, Michael Crichton's contributions to pop culture were substantial. Prior to his successful career as a director, writer and producer, however, Crichton made his place a doctor: He graduated from Harvard Medical School and worked as a post-doctoral fellow for several years. Photo courtesy: Leonardo Casendamo / Getty Images According to Crichton himself, "I was attracted to medicine partly because I thought I would do useful work, helping people à ~" I should never wonder if the work was useful. Nevertheless, he moved to new careers where he put his old acquaintance to work. R & B Star Jay Sean is one of the best selling British artists of all time. However, he had not dropped out of school to pursue his musical career, but might instead have become a stand-out in the medical industry. Photo courtesy: @Jaysan / Instagram When his college years increased, Sean enrolled at Queen Mary, University of London to study medicine. After two years, however, she decided to withdraw from school to put all her energy into promoting her creative efforts. Pau Gasol of the Chicago Bulls almost avoided pursuing a basketball career to find a cure for one of his idols, Magic Johnson, when he announced he was HIV positive. He was eleven when he decided to put aside basketball to become a doctor and help his hero. Photo courtesy: Ned Dishman / NBae Via Getty Images Gasol participated in the University of Barcelona researching a medical title. However, as his basketball skills improved, it was clear that he belonged to a uniform rather than a scrub. Eventually he ended up falling to resume the promotion of his athletic talents. Graham Chapman, beloved star of Monty Python, had medical aspirations That was a star. He studied Medicine in Cambridge and St. Bartholomew's Hospital Medical School, but was not inspired by him. Photo of courtesy: Central print / getty images while in school of medicine, he has collaborated with John Cleese, another future Star of Monty Python, in a dramatic club called called In the end, he opened his scrub and instead took a script. While George Miller may not shine in front of the camera, he has altered the world of cinema "and medicine" during his more careers. Before creating the MAD MAX series of critically acclaimed acclaimed action movies, Miller worked as a doctor. Photo of courtesy: Brendon Thorne / Getty Images for AFI In the end, cinema held away from medicine. "I always wanted to be a doctor," he told Pri. "But at the same time À ¢ à ~| suddenly I am interested in the cinema À ¢ à ~| there was an entire cohort of people who were practically guided by enthusiasm." Naomi Judd is half of one of the most famous Country Duo in the history of music, the righteous. (Her daughter of her, Wynna Judd is the other half). However, before, he worked as a nurse . Photo of courtesy: Isaac Brekken / Getty Images Judd had two children and divorced her husband by 22. As she was also influenced by her brother's initial death, Jud studied the Nurses to guarantee it could provide to his children, in the end, bringing her to become an ICU nurse. Despite those motivations, the music industry became the work of her life. This real New York Star housewife is a consolidated actress, model author and television personality-and you can add nursing to her list! Luann de Lesseps, who began to go entitled "Countess" after married French images in the 90s, was a nurse long before she was an entertainer. Photo of courtesy: @ Contessluan / Instagram "Being a paid nurse for Diem allowed me the flexibility to shape À ¢ à ~| I think the skills of the people I have acquired as a nurse who certainly helped me to be a better entertainer , And I've never forgotten to be grateful for good health, "he shared Forbes. Emeli Sande is one of the most successful banners of the last decade. She wrote strokes for Rhianna's sympathets, Alicia Keys, Labrinth, Leona Lewis and more. However, Sande knew that the music industry was hard to succeed. She wanted to make sure to cover her financial bases to College pursuing a medical degree. Photo of courtesy: @ Emelisande / Instagram Sande attended Glasgow university, where you studied medicine for four years. Although she was abandoned in her last year, she holds an intercalated degree in neuroscience and later received an honorary doctorate of university from the same institution. Author Khaled Hosseini is a criminal author famous for novels such as the kite runner and a thousand beautiful only, as well as film adaptations of him. Between moving from Kabul, Afghanistan to Paris in San Jose, California and later becoming a famous author, we think he wouldn't have time for a medical career. You too is wrong. Photo of courtesy: English / Youtube Hosseini graduated in Biology from the Bachelor's degree at the University of Santa Clara followed by a medical degree from the University of California, San Diego. He completed his residency at Cedars-Sinai Medical Center in Los Angeles. When hisThe novel was published in 2003, he was still practicing, although he later left the field and said he did not miss it. While Tanya Sam's charismatic personality shines on Atlanta's true housewives, her abundant energy used to bring joy to hospital patients. Before becoming a housewife, a businesswoman and a fashion guru, Tanya was a registered nurse. Photo courtesy: @tstanyatime / Instagram She shared a glimpse of her past (along with a picture of her in Scrubs) with fans on her Instagram page, @ @tstanyatime. He wrote, "#TBT to my days like an rn! Are you a day nurse or a night shift? I loved a night shift! Crazy things happen on the night shift!" This internationally successful Canadian musician is a stopwatch campaign star. However, her golden voice did not always bring her career. Before blowing up his opponents in talent competitions and signing with record recovery, Brandt enjoyed a humble career as a pediatric nurse. Photo courtesy: @lmalbertabound / Instagram Brandt's father was a paramedic, so a medical field seemed a natural choice. Brandt himself worked at Alberta Children's Hospital. "If my career hasn't made a breakthrough, I haven't been a nurse yet", she told the media planet. "I am blessed to have had two amazing careers that I love." With shows like the West Wing and desperate housewives under her belt and more emmys to her name, Kathryn Joosten has had a fruitful career in the entertainment industry. Before that, however, she worked as a mental health psychiatric nurse (PMHN). Photo courtesy: Mathew Imaging / Filmmagic for Academy of Television Arts and Sciences / Getty Images Joosten Once worked as a psychiatric nurse at Michael Reese Hospital in Chicago and married a fellow psychiatrist. However, the prospect of acting kept calling her and following her divorce, she decided to go all the way. Fortunately, his decision paid off. Actress Sonya Eddy appeared regularly on the general hospital as a nurse Epifania Johnson. As it turns out, his role of care was more than just a character; It has extended into his daily life. While she also has a degree in theatre and dance, she trained to be a licensed professional nurse (LVN). He worked as one until his acting career took off, and undoubtedly helped him land his big role. While Ernesto 'Che' Guevara may be better known today for appearing on college students' T-shirt, he was first and foremost a Latin American revolutionary who helped bring Fidel Castro to power in Cuba. Before riding a motorcycle across South America and rebelled against the bourgeoisie, however, he worked as a doctor. Photo courtesy of RenÀ ¢ Burri / Wikimedia Commons ha a degree in medicine at the Universidad de Buenos Aires, which pursues after the passage of his grandmother. It was just fter traveling all over the country and assisting poverty and inequality in the first person who knew he wanted to do more than work in a medical office. office. office.
