Either they love it for the amazing animation, an abundance of horrifying villains, and incredible fight choreography—or they hate it for subpar storytelling, shallow character writing, and unfunny comedy. The truth is somewhere in between. Demon Slayer has some of the best animation of this generation. However, there are some people who don't think that the show has great storytelling. In fact, one person on the internet wrote a scathing critique of the show for fear that it isn't a "serious" anime anymore. The show has been called a "trainwreck" by many fans and critics alike. This season is no different in this regard. Episode 4 was full of errors and poor writing that made it difficult to care about the characters or enjoy the fights. The main character wasn't well developed and there was very little development done with any of the antagonists.
