This book is part of a family of sybex qualbex books, which are all written by leading authors who combine the practical experience with a gift for teaching. Sybex was founded in 1976. More than 30 years later, we are still committed to producing exceptional sistently books. With each of our titles, we are working hard to establish a new standard for industry. From the print document onwards, for the authors we work with, our goal is to bring the best books available. I hope you can see everything that is reflected in these pages. Ia D Be very interested in hearing your comments and get your feedback on how we are doing them. Feel free to let me know what you think of this or any other Sybex book by sending me an email to [email, protected] If you think you € you found a technical error in this book, please visit the http site: // sybex.CUSTOMERHELP.com. Back customer feed-is fundamental to our Sybex efforts. Best regards, Neil Edde Vice President and Sybox Publisher, a Woly Download footprint from Wow! Ebook Awards I would first like to thank my acquisition editor, Jeff Kellum. Ia Ve worked with jeff for more than I can remember, and Him work experience with me and the Cisco certification process is a resource needed for my success. Thanks for hanging up, once again, Jeff Working with David Clark as my development editor was a first, and it was a smooth, pleasant experience in thanks, David! Also, Judy Flynn and Christine or Connor made the editorial process of a boy's play. I was very happy when I heard that they were working with me, once again on this new book! I look at the department for many projects more with this great team. I also want to thank my technical editor, Ryan Lindfield. The dedicated him, comments concise have been valuable and have made this a better book. The technical draft corrector is Isaac Valdez, and he was very detailed, making Ryan, John, and I didn't lose any detail. Thank you all! Thanks also to vertical team websites, whose hard work has led to a power-packaged, good-looking test engine. And last but not least, thanks to the Sarah Kaikini and Dan Aull accounor, Robert Swanson's indexer, and composer Craig Woods in Happenstance Type-O-Rama. The Authors of Todd Lammle holds numerous Cisco certifications and is the Cisco certificate authority. He is a famous author, speaker, trainer and consultant. Todd has over 30 years of work experience with LAN, WAN, large wireless networks with licensed and without a license, and for recent years, data center technologies. It is president of the Globalet Training and Consulting, Inc., a company of integration and network training based in Dallas, San Francisco, and Boulder, Colorado. You can reach Todd through the forum of him at www.lammle.com. John Swartz, CCIE N Â ° 4426, is the founder of Boson Software, 3DSNMP, Purple Penguin, unified trainers, and Inner Four. He feels The major changes in the computer sector are occurring in the data center and with smartphones. It was a Cisco instructor for 15 years, starting from base courses and now teach unified switching computing, Nexus, Vblock, and other data center technologies. He is also focused on mobile technology; Him companies have published over 1,000 applications for iPhone and e John created the original Cisco Press CCNA Network Simulator, the Boson Netsim, and numerous practical tests. John lives in Florida with his wife and three children.
