What is ‘Halloween’?

Halloween is a tradition that began in Europe many hundreds of years ago. Nowadays, it is a special day in many countries around the world. It always falls on the same date every year, on (1) October 31. At night, children wear (2) _____. These are clothes that make them look like interesting (3) _____, monsters, or people. The oostumes usually include a (4) _____ or some make up for the face. For example, on Halloween you might see an elephant, a (5) _____ with a tall, black hat, or maybe even a (6) _____ ghost! The children then go from house to house and ask for (7) _____ by saying, (8) “_____.” Many older kids and adults also put on costumes and they go to Halloween (9) _____. “Jack - o’ lanterns” are very common. A lot of people like to put them in their (10) _____ or on their front door steps. They are (11) _____ with candles inside, and faoes cut into them. Most people have a lot of (12) _____ on Halloween. Happy Halloween everyone!

Which ones best suit your personal language learning preferences? These 31 Japanese learning apps allow you to easily swipe and tap to improve your Japanese fluency. Content Japanese Apps for Android and iOS Best for Beginners: Learn Japanese Phrases from the Bravolol App Store || Google Play Short Description: A word and phrase learning app with vocabulary and pronunciation tools for beginners. Learn Japanese Phrases contains hundreds of common words and phrases for beginners. They're grouped into sections like greetings, food, and romance, and you can even keep track of your favorite phrases in your personal collection. Each word and phrase is accompanied by a sound that can be manually slowed down. Apps tooyou can record your speech and compare your pronunciation with the program's audio to check if your pronunciation sounds like a native speaker. Best of all, the app doesn't require an internet connection, so you can access it from anywhere, anytime. Price: Best Free App for Immersive Learning: FluentU App Store || Google Play Summary: Authentic Japanese media clips turned into language lessons. FluentU offers authentic Japanese videos such as videos and inspirational talks with interactive English and Japanese subtitles: you can take a speaking quiz after each video and include listening exercises, and you can create personalized flashcards for all the new words you encounter. Instead of just showing the definition of a word, FluentU's multimedia dictionary shows you the meaning of the word in context along with suggested examples. You can even find other videos that use the word for more exercises. Each video is accompanied by full transcripts with audio and cursor definitions, as well as a glossary of key terms used in the clip. Price: Free trial and subscription Best for all-round lessons: renshuu App Store || Google Play Summary: Contains Japanese lessons for all levels as well as easy-to-use vocabulary games. Looking for an app with a large selection of educational games? Renshuu will soon be your new best friend. renshuu is a very fun app with detailed explanations of vocabulary, grammar and kanji, as well as customizable quizzes to check your progress. The app also offers fun learning games to test your skills, such as crosswords and Shiritori. Renshuu's biggest advantage is its variety. You can customize the card settings or complete the crossword puzzle. In addition, you can submit your own suggestions for writing themed games and get useful feedback from an active community. Price: Free; The best subscription for short lessons is available at: Busuu App Store || Google GamesA comprehensive Japanese app with quick daily lessons that focus on speaking. Busuu aims to teach you Japanese in just 10 minutes a day, so it's easy to use when you're short on time. It emphasizes vocabulary and even has a section dedicated to travel phrases. In addition to vocabulary, grammar, pronunciation, writing, reading and conversation are also taught. The app even helps you create a personalized study plan so you can maximize your study time. With Busuu, you can easily track your progress. The program is best suited for beginners and advanced users. Check out our full Busuu review here. Free; Subscriptions available Best for Structured Courses: LingoDeer App Store || Google Play summary: A structured course covering vocabulary, grammar and dialogue. This beginner-to-intermediate resource teaches Japanese language and grammar step-by-step, constantly expanding on what you already know. The Japanese courses are carefully structured and offer vocabulary lessons, detailed explanations of grammar points and contextual dialogue. While you usually go through lessons organized into units, the app also offers additional learning options such as flashcards, stories, vocabulary and more. LingoDeer's structured format lets you know nothing about the language, allowing you to create intermediate-level sentences. Check out our full LingoDeer review here. Free; Subscriptions Available Best for Slang: Memrise App Store || Google Play Summary: A vocabulary app that teaches basic Japanese phrases as authentically spoken by locals. Memrise takes a more visual approach to language learning. Full of fun animations and very similar to a video game, Memrise makes learning Japanese fun. It is also primarily a vocabulary learning app with many different lists to study. The app uses repetition to improve memory of a word or phrase then reinforced by frequent recall of already learned words. User-submitted visual and textual mnemonics make it easier to remember specific words, and you can customize how much you want to learn per day. Price: free; Subscription available Best grammar material: Tae Kim's Guide to Learning Japanese App Store || Google Play Summary: A reference app that teaches Japanese grammar logically. Tae Kim's Guide to Learning Japanese is actually an app version of Tae Kim's online grammar guide. It looks and works like a digital textbook. Tae Kim believes that traditional textbooks have an illogical structure because they try to force students to speak the language immediately. This leads to a misunderstanding of Japanese grammar. Instead, this guide will introduce you to Japanese grammar in a way that makes sense. Beginners can focus on basic grammar concepts involving verbs and adjective conjugations. Advanced users can view topics such as special terms, conditions and more. Price: Free best grammar lessons: Bunpo App Store || Google Play Summary: A comprehensive app covering all JLPT grammar points. If you want to improve your grammar skills, consider downloading Bunpo. Bunpo contains a complete Japanese grammar dictionary. You'll also have access to 1,800 flashcards and 8,000 quiz questions to practice a variety of language skills, including listening, reading, and writing. You'll take quizzes on the Japanese alphabet (katakana and hiragana), access a kanji dictionary, and get detailed grammar notes explaining why the language works the way it does. The Bunpo program starts at the beginner level but can give you all the business level Japanese skills. Some students may find this too much, while others may find it useful. Price: free; subscription available Best for dictionary creation: Drops App Store || Google Play Summary: A Japanese word game that worksAbilities. We are all guilty of spending too much time playing phone games. But what if you could play a mobile game and learn Japanese at the same time? That's the idea behind Drops. Drops immerses you in Japanese for five minutes a day as you swipe and tap to match pictures with words. You can only play for five minutes every 10 hours, so you need to be on your toes to make sure every second counts! (Subscription removes time limits.) If you're new to Japanese or looking for something fun to add to your study routine, check out this short and cute app. Its free. Best for Flashcards: Anki App Store subscription available || Google Play Brief Description: A classic flashcard app that uses spaced repetition for effective learning. Many Japanese students find Anki to be one of the best ways to learn the language. Anki allows you to create a variety of card styles, from traditional flip and face to fill-in-the-blank with correct answers. Works well for learning vocabulary, grammar and even kanji! Using the Spaced Repetition System (SRS), Anki keeps track of what you know and what you need to repeat. It then shows you the words you're about to forget at optimized intervals until each vocabulary word is firmly embedded in your long-term memory. There are many amazing packages created by the community for free. Check out our full Anki review here. Price: Free Best Sample Sentences: Japanese by Renzo App Store || Google Play summary: A detailed dictionary with many example sentences. Japanese by Renzo is an incredibly powerful comprehensive dictionary app with results sorted by relevance. In addition, the app offers letter-based search, a web-based text reader, and the ability to import your data from other Japanese learning apps. You can add your own notes to the records. Price: Free Best News for Beginners: Todai Easy Japanese News App Store || Google Play Dashboard: An interactive app that displays news articles,Japanese, including furigana. It's never been easier to keep up with what's happening in Japan. Easy Japanese News collects sources from various major news networks such as NHK, CNN, TBS, and Asahi into one app. Each article is interactive, allowing users to search for any word with the touch of a finger. The app also has Japanese news podcasts and videos to cover all your educational bases. This app is also perfect for JLPT hopefuls of all levels. Each word is underlined according to JLPT difficulty level. There are also practice tests that cover material from the listening and reading sections of the exam. Price: Free Best Advanced News: NHK Easy Japanese News App Store || Google Play Summary: Daily news app for intermediate or higher. NHK Easy Japanese News is another news app for language learners. All the text has a furigana, and each track has the ability to change the playback speed. This type of learning is great because you can learn from real life situations and materials. It's real news, so you'll get real, non-fictional Japanese. I highly recommend using this app if your Japanese is at least intermediate. However, the application uses formal language, so the text is quite dry at times. Try translating at least one article yourself and you'll feel like you've improved your skills! Free; Best for Audio subscription available: LingQ App Store || Google Play Summary: An audio and reading app that lets you save unfamiliar words for later study. LingQ is an application that immerses users in text and audio media in their target language. With this app, you can read authentic Japanese content such as news articles and stories, listen to podcasts, audiobooks, and more. As you read, you can save new words to the flashcards and then repeat them using the VRS app. Program. Once you've determined your skill level, you can browse a library of podcasts, stories, and more, you canimport your content and learn from what you love the most! Check out our full LingQ review here. Price: free; subscription available Best for training: italki App Store || Summary of Google Play: an app that connects students with Japanese teachers for one-on-one lessons. There is simply no better way to improve your Japanese than by having a conversation with a native speaker. With italki, you can find a tutor for any language you want to learn (including Japanese), the best part? No big upfront fees - payments are made per class. From formal tutors to casual tutors, classes are personalized so you can work on whatever you want. You can browse instructors based on user reviews and prices, and explain what you expect from your lessons. Check out our full iTalki review here. Price: Varies by instructor - Best Talk: HelloTalk App Store || Google Play Summary: A language exchange app that connects you with Japanese speakers. HelloTalk is a language exchange app that allows you to chat with other people around the world. With this app, you can chat with Japanese speakers who are learning English (or your native language) and exchange languages, that is, help each other learn the appropriate target language. Unlike other texting apps, HelloTalk allows native speakers to edit chats and correct grammar. You can even share voice messages! There is also a built-in grammar correction feature that you can learn as you type. Check out our full HelloTalk review here. Price: free; Best for Social Media subscription available: Ameba App Store || Google Play Summary: A Japanese blog site for native speakers with countless topics. Ameba is a popular blogging platform in Japan, available on the web and on mobile devices. Mobile apps allow you to follow your favorite bands, fashion icons or video games. Ameoba can be downloaded by users around the world, but the app itself is in Japanese. This isSo immerse yourself in the language! The biggest benefit of using Ameoba is that you can blog in Japanese and find native speakers with similar interests. This can be a great way to make friends with native speakers and learn some internet slang. Price: Free Best Gamified: Duolingo App StoreA||A Google Play Summary: Fast and engaging Japanese lessons based on pictures and intuitive learning. It uses gamelplay features to encourage you to learn and includes fun challenges to keep you engaged. The app also offers intuitive quizzes to help you memorize vocabulary and kanji. The lessons are short and easy, so you can learn Japanese whenever you have a few free minutes during the day. If you don't have much free time to study the language, the app boasts that you can improve your skills in just 5 minutes a day. Check out our full Duolingo review here. For free; Subscription Available Funniest: Pocket Colony App Store || Google Play Summary: Virtual role-playing game in Japanese that can expand your vocabulary. who lives in a virtual world. Like other similar apps (e.g. LINE PLAY), you and your Pockatar can complete quests, play games, dress up and decorate your home together. You can chat on message boards or travel through the "worlds" of different players to meet and befriend potential language partners. You can also improve your reading skills with the Japanese interface. English support is currently only available in the iOS version. Price: Free The best Japanese learning apps for Android If you are an Android user, the following Japanese learning apps are available on Google Play Store. Best All-In-One: JA Sensei Google Play Summary: A beginner's app that teaches basic Japanese reading, writing, listening, andThis self-proclaimed all-in-one app focuses on all the basic language skills: reading, writing, listening, and speaking Japanese. Each lesson introduces grammar and vocabulary with real examples. There are regular comprehension checks and in-app tests using the SRS system. You can also record your own pronunciation and then compare it with the native pronunciation! JA Sensei offers many other language learning tools such as native audio, phrase dictionaries, and a drawing tool to practice typing. What makes JA Sensei even more interesting are the cultural facts that will surely help any potential tourist interested in Japanese customs. Price: Free Best for Everyday: Takoboto Google Play Short Description: A quick dictionary for everyday use in Japanese. This simple and practical dictionary will save you. With Takoboto's offline features, you can search for Japanese words anytime, anywhere. You can search in English or Kana, simple or conjugated - whatever you're looking for, Takoboto will find it, complete with tons of example sentences. You can search for single words as well as common phrases and grammar. If that's not enough for you, Takoboto offers additional explanations of the grammar rules on its website. If you find specific words you like, you can save them to your own lists or even export them to Anki as cards. Price: Free Best for Sentence Structure: Obenkyo Google Play Description: An app that covers all parts of Japanese sentence structure, from kana to particles and grammar. The simple yet structured lessons in the app will guide you through all the basics of the Japanese language, from hiragana and katakana to vocabulary and particles. It also works with Tae Kim's guide, an excellent source for Japanese grammar that comes up earlier in this list. Obenkyo breaks down the Japanese language into all its components.parts, making it ideal for beginners. The app includes a guide to kana, kanji, vocabulary, particles, numbers and grammar. The kana and kanji sections use handwriting recognition software to help you learn how to write correctly and legibly. Price: Free Best for Writing: Kanji Senpai Google Play Short Description: An SRS-based kanji writing app for practicing kanji writing at all levels. Kanji senpai uses spatial repetition to help you memorize kanji characters. In addition, the characters will return in daily courses so that the learned kanji will not disappear from your memory. The application contains characters that appear in all levels of the JLPT and offers several ways to explore different characters. Users can practice writing characters, create and upload their own vocabulary lists, and test their vocabulary with a variety of quizzes. The app even gives you access to great stats so you can set daily goals and keep track of how much and how often you study! Price: Free Best for Kanji: Japanese Kanji Tree Google Play Short Description: Comprehensive kanji app with kanji recognition, reading and writing. Japanese Kanji Tree is an application for developing kanji skills. This application implements a unique three-step process for learning kanji: recognition, reading and writing. You can learn based on JLPT level or class, and the Pro upgrade lets you create your own study lists. The kanji are broken down into radicals for ease of understanding, and the stroke order is shown in easy-to-understand steps. Since the interface is user-friendly and you are given the freedom to act at your own pace, you will easily master one of the most intimidating aspects of the Japanese language. Is free; iOS version of the best Japanese apps available Ready to learn Japanese with your iPhone? All of these apps are available on the App Store for iOS devices. Best for Learning Kana: Kana (Hiragana & Katakana) App Store Summary: Comprehensive Hiragana & Katakana Learningwith quizzes and flashcards. There are many apps on the market to help you learn hiragana and katakana. This app presents both alphabets for free and even shares information about their history and origins. The app is divided into chapters with pronunciation examples, quizzes, flashcards, line charts and more. Kana not only teaches how to pronounce each character, but also shows how this character is used in different words. Users can track their progress by viewing graphs or taking tests. Kanji creators also have a similar app for learning and viewing kanji. Price: Free Best for learning to write: BenkyA App Store Description: An SRS-based app for learning the Japanese writing system with additional quizzes and exercises. When it comes to learning kanji, this app goes beyond that. Practice your knowledge of kana, kanji and vocabulary with SRS or custom intervals with different learning styles. The app offers three self-test modes: Flex SRS, Smart Quiz and Custom Quiz. Flex SRS lets you revise over and over, Smart Quiz lets you quickly practice what you have the most trouble with, and Custom Quiz takes care of everything from reviewing specific entries to selecting card types. You can also write on the screen to practice stroke order. Price: Free Best for Beginner Readers: Kana Quiz App Store Description: A simple and fun application for learning the basics of the Japanese alphabet. Kana Quiz is a basic app with two learning options: you can read the word romaji and compare it to its kana counterpart, or look up the word kana and look up its romaji counterpart. Using a flashcard-based learning approach, Kana Quiz separates hiragana and katakana into different levels so you don't feel overwhelmed by the two alphabets. Each time you touch a character, a voice speaks to the character to aid memorization. This is an effective way to finally learn this kana at least once.all! Price: free; a small fee to unlock all lessons. Best for chatting with native speakers: Lext Talk App Store Summary: A language exchange app where you can learn different topics for language partners. LLeext Talk allows users to communicate with language partners from all over the world. A very handy feature that Lext Talk offers is the map. Users can browse and view the Lext Talk map to find language partners in their region or find a partner in a specific region. This means things are a lot easier if you're looking for someone who speaks, for example, Kansai dialect. Lext Talk also provides chat rooms on various topics such as "Let's Learn English" or "Jpop Fans United" where you can meet friends with similar interests and chat in the language you are learning. Price: Free Best Dictionary: imiwa? App Store Description: An easy-to-use Japanese dictionary for smartphones. Imiwa? has a powerful dictionary that allows you to search using kanji, kana or romaji. Sample sentences (with furigana) are added to words so users can see how the new vocabulary is used in context. You can also tap on a word to hear how it's pronounced. Other features include verb conjugation tables, notepads for keeping track of your favorite words, JLTP vocabulary lists, and more. One of the imiwa? among the most useful features is the kanji function. You can search for characters by pattern or by stems or strokes, and you can practice writing them. Price: Free Best for Live Translation: Waygo App Store Description: A Japanese dictionary that can translate Japanese words into photos. Waygo allows students to take a picture of a kanji and then get an English translation. Waygo can even translate in real time: just open the app, point your phone's camera at the appropriate Japanese language, and watch the translation appear on your phone's screen right in front of your eyes. This feature also works offline, so usersnever get hung up on translation. The app can also translate Chinese and Cantonese texts into English. The free version of Waygo provides up to 10 transfers per day. Free; Pro version available Best for Kids: Learn Japanese with the Mindsnacks App Store. Description: Japanese word game with funny characters and different levels. Learn Japanese with Mindsnacks is an app that is mainly focused on expanding vocabulary and is great for adults and kids alike. It offers over 800 words and phrases to learn with support for kana, kanji and romaji. The app teaches new vocabulary through eight cute and fun games with colorful cartoon characters. Users can test themselves with useful vocabulary, explore and review numbers, colors, everyday items, and more. Each lesson has 20 words so you won't be overwhelmed with vocabulary and the words are accompanied by local audio. There are so many great apps to choose from. But how do you know which ones are best for you? There are a few things to consider when choosing the right Japanese learning app: Your level of Japanese. If you are a beginner, you can focus on expanding your vocabulary or choosing an app that teaches basic grammar and sentence structures. On the other hand, if you're more advanced, you don't have to worry about hiragana and katakana learning apps and can focus on kanji or reading skills instead. Select the application you want to improve according to your level. Time Commitment - How much time per day do you have to study Japanese? Some apps require you to log in daily to upgrade your flash memory or keep learning interesting by rewarding you for how many consecutive days you study. But if you're trying to learn Japanese through a full-time job or family obligations,with curriculums that allow you to practice and learn a little when you can. Specific Skills Have you signed up for a Japanese language test and want to focus on specific skills such as kanji or grammar? Or do you want to improve your listening after finding a conversation partner in Japanese? In this case, you can focus on apps that teach certain skills and focus on your weaknesses in Japanese so that you can improve them easily. your way to flow! continuity!
