The PlayStation (officially abbreviated to PS, and commonly known as PS1 or its code code, PSX) is a home video game console developed and marketed by Sony Computer Entertainment. The console was published on 3 December 1994 in Japan, on 9 September 1995 in North America, on 29 September 1995 in Europe and 15 November 1995 in Australia. The console was the first to the training of PlayStation of the Home Video Game Consoles. Greece mainly with Nintendo 64 and saw Saturn as part of the fifth generation of video game consoles. The PlayStation is the first "entertainment platform for the appeal" to send 100 million units, which had reached 9 years and 6 months after its initial launch. In July 2000, a redesigned and subtle version called PS has been released, replacing the original gray console and appointed appropriately to avoid confusion with its successor, PlayStation 2.The PlayStation 2, which is retrÃ compatible with the Dualshock PlayStation the controller and games, was announced in 1999 and launched In 2000. The last PS A unit was sold at the end of 2006 at the beginning of 2007, shortly after it was officially interrupted, for a total of 102 million units sent by its launch 11 years earlier. Games for The PlayStation continued to sell until Sony has ceased the production of both PlayStation and PlayStation games on March 23, 2006 - over 11 years after it was released, and less than a year before the debut of the PlayStat ION 3. Download and running ISO files: Suikoden II (E) [SLES-02442] is one of the best PS1 console games. To play Suikoden II (E) [SLES-02442], first of all, of course, you need to download the game and then decompress / irrigate / un7z the file. Download them we strongly recommend using 7zip or WinRar for a game file inaric. After opening your file your file open your emulator and select the ISO file. Sometimes downloaded game files contain other files stored in parts. So you also need to be inhical. The game experience depends on the emulator (s) and the specifications of your PCs. Since we are all waiting for the next suikoden (if you are Never is there) and I think the questions of each and every Suikoden here at Silksource is quite ahmm. Specific Already.and I think That some of the fans have free time on their hands because don't try to translate the PSP version of the game? I want to say Hey game is great and Japanese people can not really appreciate, but the hell we do! Konami has not yet releasing international game because he has not sold on the Japanese market. His pretty unjust. So I think the boys all We should join and try to give the joy of every Suikoden fans. I tried to play and there is some changes made to PSP version so I think giving a chance translation would be a good idea. What do you think kids? If they manage to release a patch patch Monster Hunter 3 laptop in a couple of days after her release, why can't we do it? I know it will take some time, but we have the PSX version of the script, so perhaps the decryption and apply it to the PSP version will be easier.
