Photo courtesy: Paul Narkin / Getty Images Musicians often perform only for the thrill of it, but many have also used their fame to push the boundaries various social, legal and political with their texts. This is true across all genres of music, but rock Å ¸ ~ Å Å ¸ roll musicians throughout history have certainly made the most of the waves. In its heyday, the excessive use of sexual innuendo rock music and political messages sometimes led to needs - and even turned. Are you ready to know which of your favorite songs have been effectively banned from the radio because of the texts that were graphic, obscene or simply controversial? Through kinds, some of these toppers and timeless classics are sure to surprise you! Who would have started a ban on a 13-year record records dallogro and freckle? The Catholic Archdiocese of Boston, that. When Teen Jimmy Boyd recorded "I saw Mommy Kissing Santa Claus" in 1952, he had to be a guy who woke to see her mother kissing her father in a santa costume. Photo courtesy: Walt Disney Pictures / Getty Images However, Catholics have angrily criticized the song for blasphemy, saying it suggested a connection between Christmas and sex. They asked only for the end of the local boycott after the poor Jimmy Boyd met with the leaders of the Church to explain himself. He talks about being a Grinch! Although the song of 1939 "Strange Fruit" eventually became Billie Holiday's Bestselling Single Single of Her Career, Columbia Records would not record it in the '30s. In the end, a different label recorded and released the song for her, but many radio stations have even refused to play it. Photo courtesy: William Gottlieb / Redfern / Getty Images The reason why "Strange Fruit" has had some of the radio station executives weapons was because © song was based on an anti-lynching poem on African American men in the South at that moment. Despite what, was inserted into the Grammy Hall of Fame in 1978. The Best BrothersÅ ¸ ¸ ¸ 1957 # 1 hit titled "Wake Up Little Susie" was banned in Boston because © had parents wondering just what their children were doing after allegedly they were asleep. This is another case of puritanico thought of the '50s, which often has stifled the creativity of the musicians of that era. Photo Courtesy: ABC Television / Wikimedia Common Times have certainly changed, however, and we'll show you how. Full Nearly half a century later, a new born Christian and then-presidential candidate George W. Bush apparently remarked that he "wakes up in the small plum", so it happened to be the favorite song of him. The irony! Perhaps the most famous track forbidden in American history, "Louie Louie" was originally a song by Richard Berry in 1955. However, in 1963, the Kingsmen remain the song with some dark lyrics and seemingly incomprehensible that Ultimate Classic Rock (a rock show syndicated Syndicated Radio) considered explicit. This has led to a ban on many stations. Photo Courtesy: GAB Archive / Redferns / Getty Images When an individual has complained to the Attorney General acting, Robert F. Kennedy, was launched FBI investigation to understand what he said exactly the texts of songs. After the investigation has been completed, the FBI has determined that it "was not possible to determine whether this recording is obscene." In 1964, Van Morrison was the lead singer of the band. He wrote a song called "Gloria" that offended some radio stations in Chicago, leading to a ban. Despite what the song at the end he arrived at Granmmy Hall of Fame. Photo courtesy: Salhoode / Wikimedia Commons Leated the Song lyrics like "He comes here almost midnight here, it makes me feel so good, I mean that it makes me feel good."After the ban, a band called the shadows of the Knight rifacitated the song and altered some texts, turning it into a Top 10 classic. In another Bizarre Song Ban established by the BBC, the song of Chi" My Generation "has been removed from radio airplay because the BBC has heard the line" because it is not possible that all FFF-SVNI FFF-SVNI to those with a stutter. And that was many years ago but everyone is offended by it absolutely everything. Photo courtesy: Jim Summaria / Wikimedia Commons As a result, no one really believed this line of reasoning, and most people thought that the suggestion of an f-word a lot more offensive was the real reason for the ban. Apparently, even the suggestion of obscenity was enough for them. However, the song was very popular, which led the BBC to then reverse their decision. One of the most seemingly innocent songs on this list, "Eve of Destruction" has been sung by Barry McGuire and written by mp Sloan). E" was banned by several radio stations in the United States after the powers that be decided they didnÅ ¸ t as McGuireÅ ¸ s opinions and thought that the band than he was against the war. Photo courtesy: Alan Band / Fox Photos / Getty Images Some of the lines were offended "human respect is disintegratÅ ¸ ¸ all this crazy world is just too frustratÅ ¸ ¸" and "A | youÅ ¸ re old enough to kill, but not for votÅ ¸ ¸." This didn't stop the song to become a No. 1 Billboard hit in 1965. In a strange another example of why © song was banned, hit No. 1 by the Shangri-Las named "Leader of the Pack" has had some stations refusing to play the tragic song. Full of teen angst, this song tells the story of a break that led to the Singera boyfriend's death. Photo courtesy: Roberta Bayley / Redferns / Getty Images "Leader of the Pack" included repeated phrase "Look out!" in the lyrics along with the roar of a Harley engine, which implies that an accident was about to happen. Several radio stations thought the song glorified motorcycle gangs and rifiutÅ ¸ to play. In another, many radio stations based on religion which bans banned BoysÅ ¸ beach ¸ "God only knows." This is the case, although according to the Beach Boys, which meant "God" as a "spiritual word" and not a blasphemer. Photo courtesy: Gijbert Hanekroot / Redferns / Getty Images Brian Wilson is moved to say that many musicians who attended the recording of the song called one of the "most magical, beautiful experience" they had ever had. He almost changed the lyrics the earnest, heartfelt ballad, but he decided not to in the end, in line with the true meaning of the song. After John Lennon declared that the infamous band of him, the Beatles, was "more popular than Jesus", many radio stations banned music from the band for alleged references to drugs in their songs. "Lucy in the Sky with Diamonds" has been one of the songs that have prompted speculation that the title was an acronym for the drug LSD. Photo courtesy: Poppe de Boer / Wikimedia Commons Although LSD was a popular hallucinogenic drug when the song was released, John Lennon vehemently denied that the song had anything to do with drugs. According to Lennon, the song was inspired by a drawing that a fellow student has made his son Julian, song by the Rolling Stones in 1967 "Let's spend the night together" made some people angry with the lyrics of him that seemed to encourage people to be promiscuous. The BBC he pply banned. The Stones continued to irritate Ed Sullivan show when they were in him by not following some fixed rules. Photo courtesy: Jim Pietryga / Wikimedia Commons Sullivan had asked that the band change the lyrics to "Let's spend some time together", but Mick Jagger mumbled the royal line while rolling his eyes. Even worse, when the band is back on stage, were dressed in Nazi uniforms adorned with swastikas. This got them kicked off the show altogether. Along with "Lucy in the sky with diamonds" from Sgt. PepperÅ ¸ s Lonely Hearts Club Band album, the song entitled "A Day in the Life" was Also from the BBC. The reason why it seemed a little ridiculous, in truth. Photo Courtesy: Universal History Archive / Getty Images However, the BBC was its land after deciding that the "IA love lines to turn into" and "found my way upstairs and had a smoke" they were both Drug references. As with the mentioned banned the song on the same album, both John Lennon and Paul McCartney categorically denied these allegations. In an effort not to get his song "Brown-Eyed Girl" bandit, Van Morrison has changed the title from the original name him, that was "dark skin of a girl." It is assumed that this wouldnÅ ¸ t go over well, as in 1967, interracial marriage was still against the law in 17 states. He was probably right. Photo courtesy: RB / Redferns / Getty Images However, several radio stations banned the song in any case for the line "make love in the green grass." This might seem harmless now, but it was considered quite racy in 1960. The song was MorrisonÅ ¸ s first release as a solo artist, and coincided with the hippie-inspired "Summer of Love". In 1967, The Doors caused quite a big stir when they put their album titled Strange Days. And 'it is including the song "Love Me Two Times". Several radio stations banned the song immediately, but one went a bit 'overboard. Photo courtesy: Michael Ochs Archives / Getty Images When Jim Morrison started singing "Love Me Two Times" at a radio station in New Haven, Connecticut, the stationÅ ¸ s top-up actually called the police on him! This Morrison rock star made the first in history to be shut down during a performance. He was accused of inciting revolt and obscenity. MC5Å ¸ s debut album was banned because of the use of the f-word in the first line of the title track. According to Ultimate Classic Rock, the album was pulled from store shelves and was returned only when the sound or word printed on the inside cover was censored, or both. Photo courtesy: Sergione Infusion / Corbis / Getty Images Even after censorship, a department chain called HudsonÅ ¸ s still refused to carry the album. In response, MC5 took out full-page ads in local newspapers screaming, "[expletive] HudsonÅ ¸ s!" This, in turn, has led to Banda's label, Elektra, dropping the group. When Jane Birkin and Serge Gainsbourg released the song "Ta je aime Å | moi non plus" in 1969, a lot of people thought the European couple had actually released a unique consists of a recording of two of them having sex. In response, Gainsbourg replied: "It would have been a long-playing record." Photo courtesy: Jeremy Kergourlay / Wikimedia Commons According to Gainsbourg, the song was actually written for Brigitte Bardot and Jane Birkin not at all, even though he ended up singing with Birkin. Despite being banned and being denounced by the Vatican, the record sold more than 4 million copies. If youÅ ¸ re ready to get nit-picky, "Lola" by the Kinks it was banned by the BBC after its release in 1970, for a pretty bizarre reason. In particular, the song was written on a love story between a woman and a man transgender cis, it seems the reason why it was banned in 1970 Å, but that was not the reason at all. Photo courtesy: "where you drink champagne and it tastes like Coca-Cola" KRLA Beat / Beat Publications, Inc./Wikimedia municipalities, however, the song Wasna ¸ t targeted to be controversial, but it had the courage to include the line the singer / songwriter Ray Davies has promptly responded to the ban by registering a version in which "Coca-Cola" was changed to "cherry cola", and the song was promptly put back on the air. This song is a little 'different as the writer, Rupert Holmes, actually wrote it in 1970 with the intention of getting it banned. He discovered a completely unknown group, the buoys, which then recorded the song some coal miners underground and resort to cannibalism to stay alive are trapped. Photo courtesy: Bobby Bank / Getty Images desire HolmesÅ ¸ it is true, and His cannibal song completely disturbing rendered to the top 20, making the Boe an instant one-hit-wonder. Rupert Holmes is better known for its 1979 song called "Escape (The Pina Colada Song)." This contested song initially released in 1973. With a move that the stones thought it would have been fun, but instead he the stones thought of indignation Å ¸ ¸ Å ¸ At least for some a song included the words "Yes, Al Macgraw has angry with you for the GivinÅ ¸ head to Steve McQueen" and repeats the "Star [Imprecation]" phrase in the choir. Photo of courtesy: Michele Eve Sandberg / AFP / Getty Images Rolling stones have risen directly to the point with this song, and has been readily banned. Aren We are not sure how Al Magraw took the texts, but Steve McQueen was loved amused and gave the permission of the stones to use the name of him. Paul Simon bursts the BBC on a couple of different levels with his 1973 song entitled "Kodachrome". First of all, the song violated the BBC rule against the approval of any specific product, so the song was widely banned in the U.K. Just outside the gate. Photo of courtesy: Keystone / getty images according to, in the lines of song opening, Simon says: "When I think back to all the shit I learned at high school, it's a wonder that you can think at all." Some issuers u.s. They also refused to play the song due to the use of Simon of the word "suck". Country music may not seem like a probable forum to fly feminist opinions, but in 1975, I was certainly. In one of the first songs for birth control mention never, Loretta LynnÅ s "The pill" reflected on how the different of her the life of her would have been if she had the chance not to be a baby-making machine. Photo of courtesy: Gene Pugh / Wikimedia Commons in 1975, only two years after the reference point decision of the Guidel Court, birth control was still a very controversial topic. Lynn was a teenage bride and had six children when she wrote the song. Unfortunately, the prohibition held "the pill" from being popular as it should have been. This was child's play for calling, at least according to the BBC in 1975. "Love to Love You Baby" of Donna Summer included a total of 22 orgasms simulated in the disco hit. The summer lady didn't seem to understand what the big problem was and then she spoke to the Guardian. Photo of courtesy: J. Soffer / Getty Images said, "Everyone asks, Å, Å, ~ Å,YÅ ¸ œYes are you alone in the studio? Å, Å» Å Å Å «Yeses, I was only in the studio." Second Summer, then asked, "Did you touch him?" To which she would answer, "Yes, well, actually, I had my hand on my knee". Many listeners in the 1970s are not considered Rod Stewart to be a rebel, but then published "tonight at night" in 1976. Included his then-girlfriend Britt Ekland whispering sweet knots in French at the end of the song, so it's Banned state. Some radio stations have just changed the end of the song instead. Photo courtesy: Grifoto / Wikimedia Commons Commons However, other stations had a problem with some of the other texts of "tonight at night", which included at least an obvious reference to sex: "Spread your wings and let me enter." They completely banish the song, even after assembly. In May 1977, the English monarchy was destined to celebrate the Silver Jubilee of the Queen, but the sex guns had in mind another idea. They created the single "God Save The Queen" to stress that, while the Queen was celebrating the goal of her, the working class in the British patent was bogged down in poverty. Photo Courtesy: Bruno Ehr / Wikimedia Commons This song includes texts like "Lei Aina T no human being", and immediately became a hit number one. The BBC refused to play it and Billboard does not even put it on any of his cards. This made "the record more strongly censored in British history", according to the Guardian. In this lively 1977 single hit, Billy Joel sings, "Catholic girls begin a lot too late, but sooner or later he lowers to destiny, I could also be that". Needless to say, this immediately Catholics around the world. Courtesy photo: Rob Mieremet / Anepho / Wikimedia Commons Commons predictably, it was a Catholic radio station that initially started the boycott of music that eventually led to the ban. This, however, has not stopped the song to become a huge success. Perhaps he also contributed to success. Joel later said that the girl mentioned in the Virginia was a crushed of his, and remained a virgin. In an extreme example of playing secure, many radio stations prohibited the testimony of John Denver al of Him home of the Colorado, entitled "High rocky mountain". The reason? Two years earlier, the FCC asked that the issuers stop to stop attaching the songs that "promote or glorify the use of illegal drugs". Photo Courtesy: ABC Television / Wikimedia Commons John Denver had a problem with this and witnessed in front of the Congress, saying: "This was, obviously, made by people who had never seen or was for the rocky mountains." Obviously, Denver was referring to the literal height of the mountains (and you are not greasing of drugs) when he wrote the song. 1981 Shot of Olivia Newton-John of "Physics" was extremely popular both in the United States and the United Kingdom patent, but who did not stop some conservative radio stations to ban the song his suggestive texts for. According to Olivia, "there is nothing of which nothing has gone unless horizontally." Photo of courtesy: Universal / IMDb The texts WerenÅ ¸ ¸ Å, ~ Å ¸ ¸e T The only thing that made the song controversial, however. He was even censored by MTV for a scene in the music video where two men leave the gym together they hold hands, implying that they were gay. Fortunately, the song has remained popular despite its controversial messages and was also ranked # 6 on the list of the 100 Top 100 of Billboard. Although the song "on foot like an Egyptian" came out in 1986, it appeared again in a list of "Lirico questionable" songs Messe to more than 1,000 radio stations from Clear Channel (Aka theartmedia) in 2001. This was just after 9/11 tragedy. Photo Courtesy: Tabercil / Wikimedia Commons Nobody was pretty sure of what their motive was, but the addition of The BanglesÅ ¸ benign, innocent song put out the tendency to stand out for people aware of the list. Eventually he ended up being a part of the reason that the whole thing was discredited and at the end ignored. In 1996, Walmart refused to put the second album of Sheryl Crow, on his shelves, but was not due to inappropriate content. In the song "Love is a good thing", the singer criticized the giant range of sales points to transport the types of automatic guns that are commonly used in mass riflings. Photo courtesy: symbiosis / wikimedia common commons, the crow certainly has the last laugh. Today, the eponym album Sheryl Crowl is certified Triple-Platinum. He also spent more than a year on the graphics of the billboard, making it one of the best albums from 1996-97. Walmart reviewed his gun policy and does not sell more types of weapons that can kill or hurt many people in a few seconds. Who would have thought that a song like 'ding-dong! The witch is dead" from the movie the wizard of oz would have become a # 2 affected on the British rankings? Well, this is exactly what happened in the spring of 2013 - even if the song was banned from the BBC. It was written by Yip Hrisburg and composed of Harold Arien and originally published by Fitzgerald in 1961. Photo courtesy: William P. Gottlieb / Wikimedia Commons because this apparently harmless children's song was banned, ask? Well, due to a deliberate campaign in 2013 Å ¸ ¸ ~ "many years later Å ¸ ¸ Å, ~" to increase the song at the top of the rankings after the death of Prime Minister Margaret Thatcher. The BBC considered the inappropriate song because the song was "clearly a celebration of death". Death."
