Click to download free to distribute with our compliments; We hope that you will consider our training to be paid. One of the most useful aspects of Google Docs is its compatibility with Microsoft Word. You can create a new Google Doc only by uploading a Word file. I often wrote my first step of a document up in Word where I am less distracted, and then I uploaded it to Google to collaborate better with others. This feature is also useful if you no longer want to use Word, and have a library of old .doc or .docx files that you want to continue using. To this end, these are three basic actions: Select Charge file in Google docs. Choose your Doc. Open it in Google Drive (if you want to edit).1. Open your Google Drive and click New.2. Select File upload.3. Select Word document and click Open. The file will now be loaded.4. Double-click the uploaded document.5. Click Open with.6. Select Google Docs. Your Word Doc has been converted to a Google Doc. Google Docs Microsoft Tips The word is the word processor for everything, from novels to academic documents. The tool offers many unique features, including the ability to compare two Word documents to display their similarities and differences. The Compare tool is easy to find and use in Word. Thein this article apply to Word 2019, 2016, 2013 and Word for Microsoft 365. The Compare tool is extremely useful to compare two documents of virtually any type, from newsletters to blog posts and beyond. Some of the most commonof the tool include: Search for document revisions: Authors and bloggers use the Compare tool to find revisions made by their editors if there is no monitoring of changes. Find discrepancies in the source code: Programmers use the Compare tool to find discrepancies in the source code when creating computer programs. Comparison of contracts and legal documents: Lawyers use the Compare tool to find changes to contracts and other legal documents before finalizing. Comparison: The resumes and other breathing documents are often modified. The Compare tool helps you compare these documents to find the latest version. To start, open the two documents you want to compare. If you haven't already done so, it's better to add an indicator to your documents to indicate the first version and the next version. A simple number will be enough and will keep you on track. In one of your documents, locate and select Review in the Word toolbar. Select Compare > Compare Documents to open the Compare documents open on the screen. Under Original Document on the left side of the window Compare documents, use the field to locate the original document you want to compare with the revised document. To change how you see comparisons in documents, select the arrow in the lower left corner of the window to find various comparison settings and the ability to see changes in different ways. Select those you want and uncheck those you don't. Under Revisioned Document on the right side of the window Compare documents, use the field to locate the modified document you want to compare with the original document. When you are satisfied with the settings, select OK. If you wantthe documents opposite, open the Compare tool again and select the double arrows to change the documents around without having to find them again. In this way, you compare the revised with the original. You can choose what you want to label changes as when comparing the twojust enter your label in the tag changes with field. a new document opens showing comparisons between the two documents as traditional traced changes. to see the changes in detail, select the red lines on the left side of the document to reveal details about each change on the right side of the document. If you continue working in the document you just created, remember to select the save icon as in the top toolbar. the document will not be saved automatically. Thank you for letting us know!
