## Ancient civilizations textbook 6th grade mcgraw hill

While preparing our middle school students for high school, the Saint Rose School Community ensures that students' individual talents are supported, their community responsibility. This balance of personal growth and achievement, aimed at citizenship in Heaven and engaged here as part of a socially responsible community, provides our students the tools they need to lead meaningful lives in accord with their potential. Our teaching staff at this level is departmental model provides instruction by teachers who are experts in their fields. Students begin each day with their homeroom teacher and then with their homeroom teacher and then with the whole school community at morning prayers. After prayer, they move to different classrooms for instruction in specific subject areas along with special areas classes including: Physical Education, Art, Band/Music Appreciation, Spanish, and Computer class. All classes are taught by certified teachers. Our middle school students become leaders in our community. The 6th, 7th, and 8th graders are paired with Kindergarten, first grade, and second grade students as a part of our "Prayer Partner" program. They accompany our youngest students to weekly Mass and other events, in addition to being a friendly face and source of support on campus. The Student Council, National Junior Honor Society, Ambassador Program, Social Justice opportunities, school play, athletics, and a whole host of after school clubs allow our students to explore leadership and expand friendships, consistent with their strengths and interests. Our alumni tell us that they feel very prepared for the entire High School experience--in the classroom, on the athletic fields, at other extracurriculars, and socially. We host an annual alumni reunion each Christmas season and usually have about 50 or so young people join us in our Christmas assembly with music and caroling as a Saint Rose community. Religion 6th Grade Textbook: God's Merciful Love: The Old Testament by Ignatius Press 6th Grade Topics include: Study of God's merciful love in the Old Testament, conscience and friendship Special activities: Weekly adoration of the Blessed Sacrament, monthly confession available, hands on study of the Bible and memory verses from the Bible, projects over the covenants of the Old Testament, practice of various forms of prayer English Textbook: Prentice Hall's Literature: Timeless Voices, Timeless Vo (7) Level C (8) Literature-based curriculum Accelerated Reader supplementary reading program Readworks - Digital Reading Comprehension Skill building (6) Novel studies focusing on literary elements Emphasis on reading for detail and deeper meaning Selections of poetry and dramas call for vibrant student participation and attentive, discerning writing; students enjoy parsing through Shakespeare and other notable authors' works Grammar Textbook Voyages in English Level 6, 7, and 8 Writing Process Taught Focus on Textual Analysis and Evidence-Based Essay Writing The writing process (prewriting, drafting, revising, editing, revising, editing, and publishing) Writing applications (analytical, persuasive, expository and narrative, descriptive, poetry, letters) Utilizes Google Classroom for digital assignment submission, essay writing, teacher feedback Escape Room Lessons to encourage cross curricular learning Social Studies 6th Grade Textbook: McGraw-Hill: Discovering Our Past: A History of the World: Early Ages(Ancient Civilizations) 6th Grade Topics include: Ancient Mesopotamia, Egypt and Kush, Ancient Mesopotamia, Egypt and Kush, Ancient Greeks, and Rome Special activities: Hands on artifact activities: Hands on artifact activities. contests, National Geographic Geo Bee, Veterans Day events, and International Food Day Mathematics Curriculum is based on Singapore Math Concepts.
