Dear colleague,

Our local cancer network have recently been in touch about their work to get front line staff involved in promoting earlier presentation of cancer symptoms.

We have been given a resource which supports staff to help clients or patients in simple ways. It describes common symptoms, ways in which we can raise awareness amongst ourselves or our clients as well as videos and scenarios for different roles.

Many of us have been touched by cancer or had close friends and family affected by it and will want to back this initiative. I will be fully supportive of this work as identifying the early signs of cancer saves lives and helps our clients' and patients' health and wellbeing.

Please take a few moments to familiarise yourself with the resource which is available from from **[insert a place within your own organisation]** or you can go to:

**[www.cancerlancashire.org.uk](http://www.cancerlancashire.org.uk)**

or contact the Cancer Network on (01772) 647040

Regards

**[your name]**

## QUALITY ALERT

1. Related rejection tag No.:	
2. Date of rejection:	
3. Issue reported by:	
4. Part or model No.:	
5. Part or model description:	
6. Alert Key Contact:	
7. Source supplier/dept. name:	
8. Qty rejected or issues found:	
9. Defect description:	

This alert should be posted at the work station where the defect occurred to best communicate the noted concern.

I have been notified of this defect and will assist in the inspection and improvement process to prevent reoccurrence of this issue.

Names of work station operators:      Check to acknowledge      Operator Initials & Date

## HTML Basics

Welcome to HTML Basics. This workshop leads you through the basics of Hyper Text Markup Language (HTML). HTML is the building block for web pages. You will learn to use HTML to author an HTML page to display in a web browser.

### Objectives:

By the end of this workshop, you will be able to:

- Use a text editor to author an HTML document.
- Be able to use basic tags to denote paragraphs, emphasis or special type.
- Create hyperlinks to other documents.
- Create an email link.
- Add images to your document.
- Use a table for layout.
- Apply colors to your HTML document.

### Prerequisites:

You will need a text editor, such as Notepad and an Internet browser, such as Internet Explorer or Netscape.

**Q:** What is Notepad and where do I get it?

**A:** Notepad is the default Windows text editor. On most Windows systems, click your Start button and choose Programs then Accessories. It should be a little blue notebook.

**Mac Users:** SimpleText is the default text editor on the Mac. In OSX use TextEdit and change the following preferences: Select (in the preferences window) Plain text instead of Rich text and then select Ignore rich text commands in HTML files. This is very important because if you don't do this HTML codes probably won't work.

One thing you should avoid using is a word processor (like Microsoft Word) for authoring your HTML documents.

### What is an html File?

HTML is a format that tells a computer how to display a web page. The documents themselves are plain text files with special "tags" or codes that a web browser uses to interpret and display information on your computer screen.

[date]

Mr/Mrs/Miss[Manager's name]

[Company name and address]

Dear [manager's name]

This letter is to notify you I've decided to resign from my position as [insert job title]

Although I'm required to work [xx weeks/months] notice I would appreciate it if I could leave on [preferred date] instead as I am unable to work my full notice period. I apologise for the short notice and any inconvenience this may cause.

Thank you for the opportunities and experience you've given me during my time here. I've learnt a lot at this company, both personally and professionally. I've really enjoyed my time here and I wish you and the rest of the company the very best for the future.

Please let me know if you're happy with this shorter notice period and if there's anything I can do to help make the transition easier.

Yours Sincerely,

[your signature]
